

# Enjoy the Outdoors Package #2

Cornhole game set donated by Lon Flagtwet

Cornholing has become one of the midwest's favorite pastime sports. Two to four players engage in heated competition trying to reach a score of 21 before the opposing team. Players score points by landing their bags on the opposing board or by getting their bags in the cornhole. Players compete to knock their opponent's bags off the board and score the most points to win.

Each board comes with collapsible legs and a convenient carrying handle on the side. Full instructions are included with this handmade kit, which also includes 16 tossing bags and a score tower.

Thank you, Lon, for sharing your talents in support of Spring Creek Prairie Audubon Center!
